**Coronis Fusion 10MP 10 MegaPixel wide-screen diagnostic grayscale display system**

Cena

**0,00 zł**

### OPIS PRODUKTU

Nothing less than filmless perfection; that's what you can expect from the Coronis Fusion 10MP display system.

#### Ultra-precise grayscale imaging

Equipped with proprietary 'SmoothGray' technology for a meticulously rendered grayscale curve, the Coronis Fusion 10MP makes subtle details and lesions more noticeable than ever before. Add to this exceptionally high brightness and contrast levels, truly dark blacks and perfect geometry and you begin to understand that supreme grayscale precision has a new meaning.

#### Seamless 30-inch desktop

Thanks to the seamless 30-inch LCD screen, you can easily compare prior and current mammography images without the annoyance of a central bezel. Moreover, it allows you to review X-ray chest images or 40 full-resolution CT or MR images with superb diagnostic precision on a single screen.

#### Worry-free Quality Assurance

The integrated I-Guard sensor makes Quality Assurance an easy job. Combined with the online MediCal QAWeb solution, I-Guard performs intervention-free DICOM calibrations, Quality Assurance tests and remote assessment of your display.

#### 5-year warranty, zero worries

No more worries about unscheduled downtime or unexpected expenses. Coronis Fusion 10MP comes with a 5-year warranty for complete peace of mind.

#### An ideal solution for:

- CR/DR (chest, orthopedics, pediatrics,...)
- CT (up to 40 full-resolution images)
- Digital mammography
- MRI (breast,...)

### Features

Ultra-smooth grayscale perfection

Superb grayscale precision and improved visibility of subtle details thanks to proprietary 'SmoothGray' technology, generating an ultra-smooth palette of grayscales.

Pinpoint diagnostic detail

Exceptional image precision thanks to the 10 MegaPixel LCD panel (4,096 x 2,560), delivering superb brightness and contrast.

First-class reading comfort

Flexible display of images from various modalities with the seamless 30-inch workspace

A perfect view from any angle

Uncompromised diagnostic quality from any seat in the reading room thanks to sophisticated IPS WideView LCD technology.

Worry-free DICOM compliance

Continuous DICOM-quality, worry-free Quality Assurance and centralized asset management with MediCal QAWeb and I-Guard sensor technology.

Uniform brightness across the screen

Uniform brightness across the entire screen thanks to second generation Uniform Luminance Technology.

DisplayPort connectivity

Thanks to its DisplayPort interface, Coronis Fusion 10MP supports fast and reliable data transfers. It also has DVI connectors for a truly flexible plug and play installation.

Complete peace of mind

Complete peace of mind and lowest cost of ownership with the standard 5-year warranty.

Committed to a greener future

At Barco, we share your commitment to building a greener future. That's why the new Coronis Fusion 10MP has been designed and assembled with special attention for the protection of our environment and natural resources.

We use carefully selected eco-friendly components from audited suppliers.

We reduce the amount of hazardous substances (RoHS).

We make optimum use of material, power, space and logistics.

We build products that consume less energy and apply smart power saving techniques.

We help organize the collection of electronic waste (WEEE).
