Nazwa

**OverView MVL-6715 Industry-standard 67"  
SXGA+ 4:3 LED video wall**

Cena

**0,00 zł**

## OPIS PRODUKTU

The OverView MVL-6715 is an easy to operate 4:3 LED-lit projection module that has been designed to offer the typical detail and brightness needs in SXGA+ resolution for demanding small to medium-sized control rooms.

### Unmatched LED lifetime

Barco's unique liquid cooling system significantly reduces the temperature of the LEDs. This not only prolongs the lifetime of the LEDs (>80,000 hrs), but also allows for durably higher brightness levels. The long LED lifetime guarantees a great uptime and very low overhead costs. The use of LEDs as a light source, also results in low power consumption.

### Comfortable viewing experience

To ensure good wall uniformity in terms of color and brightness levels, the OverView MVL-6715 comes with Barco's Sense5 automatic calibration system. This system works with an advanced color sensor that continuously measures the primary color levels of the entire wall, and adjusts white point and color when needed. This results in a significantly more accurate cube to cube uniformity, over the complete runtime. Furthermore, the module's robust structure makes the OverView MVL-6715 suitable for use in industrial environments.

### Features

#### Key characteristics

6x redundancy of LEDs (per color)

3rd generation LEDs for unmatched brightness & minimal power consumption

Sense5 automatic white point and primary colors calibration, for brightness and color stability

Active liquid cooling ensures longer LED lifetime

Wide color gamut

Less disposables, less waste

4:3 aspect ratio, 16:9 version becomes available during 2013
