Czynne: Pn.-Pt. 10:00-18:00
oraz Nd. 10-16

Nazwa **TransForm N Application Node (3rd generation)**

Cena **0,00 zł**

OPIS PRODUKTU

Barco's third generation TransForm N Application Node renders content running on Windows 7 desktops up to 16 Megapixels, for remote visualization on TransForm N output nodes. Intelligent proprietary screen scraping combined with remote cursor and keyboard control allows pixel accurate representation of the content on a display wall. Rendering of networked video and data sources is automatically deflected towards the display wall.

For the TransForm N CMS management system this desktop server is both a display and a source. Content can be put on the display and this composition is just another source that can be shared with other displays.

Features and benefits

Managed as an intrinsic part of TransForm N

Decoupling of content definition and operational use

Windows 7 desktops up to 16 Megapixels

Redundant network interface

Redundant power supply

Redundant RAID-1 disk drive
